Dear Professor Lederberg:

Thank you for your letter of June 12 expressing your interest in the National Space Program.

As per your request, I am enclosing the first volume of a compilation of materials on space and astronautics.

I also enclose the Hearings held before the Special Committee on Space and Astronautics of the United States Senate, with regard to a National Aeronautics and Space Act.

Finally, I am sending a publication issued by the White House entitled "Introduction to Outer Space."

I hope this material will be of some value to you. Please do not hesitate to let me know if I can be of any further service.

With all good wishes, I remain

Sincerely,

Alexander Wiley
